Alleged Probability of a New Bond Vague Expectations Have the Usual Result.

NEW YORK, Sept. 4.—The New York Financier says this week!

If the statement of the associated banks of this city for the week enting Scot 14, affords any criterion, the day of 1 per cent, in New York City has passed away. The banks now hold less idle capital than they have reported since April 7, has, when the reserve was atcapital than they have reported since April 7, last, when the reserve was affected by hond syndicate operations and while the heavy cash reductions of the past week, amounting to 39,45,300, were due in part to gold exports, the fact should not be overlooked that the loan items show a remarkable tendency to advance without symp ms of relapse, the fact should not be overlooked that the loan items show a remarkable tendency to advance without symp ms of relapse, the fact case of the week ending Sept. If being 81,3100. The aggregate loans are now \$52,085,000, or nearly \$10,000,000 in excess of the faure that stood for years as a high water mark.

The decrease of \$1,000,100 in deposits shows that money is being employed to advantage by interior banks in their own localities. The decrease of \$1,51,500 in specie was brought about by suppments previously referred to and also by the heavy export movement which necessitates the use of legal tenders.

The decrease of \$1,51,500 in specie was brought about by the deposits of gold in the sub treasury, made by banks identified with the bond syndicate.

A new bond issue in the face of such a heavy decrease in cash would put money rates far higher than they have been since the panic.

WALL STREET.

NEW YORK, Sept 14.-The stock mar ket opened weak, the unsettling influen ces of the previous day continuing oper ative. London prices for American se rities, as has been expected, came lower the reported declines extending to % per

the reported declines extending to \$, per cent.

The same unfavorable influences affecting the stock market depressed the bond market. The sales were \$1,28,000\$. Union Pacific collateral trust sizes and Colorado Midiand four's trust receipts declined 1½ per cent.

The alleged probability of an impending new bond issue was not reflected in the government security. The transactions in this department were on a moderate scale, dealings footing up only 77,000. The constant decline of the treasury gold reserve and the rumors of a new loan had a depressing effect on the new fours, causing a drop in the price of \$ per cent. compared with last week. The other liens of the government also ruled lower but the depression was only fractional.

Silver certificates were neglected, a single sale of \$1,000 at 612 being recorded.

Money on call easy at 1 per cent.

Prime increantile paper, \$1,4954 per cent.

Sterling exchange easier, with actual

THE WORD "OBEY."

Mrs. Smith Had it Stricken From the Marriage Ceremony.

CHICAGO, Sept. 14 .- Mrs. Blanche Smith, of No. 4,267 Ellis Park, was married last night to William Allan Hartt, of Tuscon, Ariz. The ceremony was performed by the Rev. W. P. Mer-

rill.

The word "obey" was stricken from the ceremony, which was private, only the relatives being present.

"I am not a "new woman," said Mrs. Smith last night an hour previous

Mrs. Smith last night an hour previous to the ceremony, "but I do not think any woman will 'obey' and, therefore, I think that part of the ceremony should be omitted."

Mr. Hartt is a wealthy miner of Arizona. He owns the Oro Bianco mine, besides having a 1,000-acre fruit farm in the vicinity of Tucson. Mr. and Mrs. Hartt, after the ceremony, left for their future home in the west.

Judge Bartine to Open the Silver Campaign.

MUCH FUNDS SUBSCRIBED.

VERY VIGOROUS CAMPAIGN OF EDUCATION TO BE CONDUCTED.

Col. Shaughnessy Has Bonded Mayflower and Lady's Dream Groups -Development Work to Commence About the First of the Coming Month-Crescent Ore Contract Was Yesterday Awarded to the Kansas City Smelters-This Makes Nine Properties Which Send Their Ores Outside of the Territory-Ore and Bullion Recelpts Show an Increase-General Mining News

"We propose by a vigorous campaign to show the people of the United States that the 'silver caze,' as it is designated by the sympathizers of the gold standard, is not dead yet by any manner of means;" said Hon. H. F. Bartine yesterday afternoon. This evening the gentle-man will be an eastbound passenger, his place of destination being the city of Chicago, where he will be joind by Secretary Light of the Bimetallic Union. "It has been decided by the executive committee of the union that Chicago is the most advantageous point from which to conduct this campaign of education, and there headquarters are to be opened at once," continued the honorable gentleman, "Mr. Light will have charge of the business end of the work, while I will devote my time to the literary de-partment. Between now and the next

pariment. Between now and the next national election we hope to make some great inroads into the enemy's country and make it impossible to place in the president's chair any man who is not a friend of silver, and who would not be willing to affix his signature to a measure providing for the free coinage of that metal at a ratio of 16 to 1, independent of the action of any other nation."

In addition to tooking after the literary interests of the coming financial campaign, Judge Bartine will more than likely go on the stump for some time. Ho is a forcible speaker as well as writer and his arguments are all clean cut. Bartine and Light will make a great team. The various Itales and territories of the west are Asponding liberally to the call for findacial aid, and the amount needed to carry on the campaign will be ready as soon as it is desired by the union.

BONDED THE MAYFLOWER.

Col. Shaughnessy Said to Have Again Become Interested in Park City.

It is reported by the Park Record that Colonel Shaughnessy has once more be-come interested in the properties of that come interested in the properties of that camp, through securing a lease and bond on the Mayflower and Lady's Dream groups, which it is proposed to develop on an extensive scale during the next few months, work to commence on the first of the coming month. The deal has just been closed up and the colonel is said to be backed by a syndicate of heavy capitalists.

It is proposed to put down a working shaft on the properties, and according to the terms of the contract, active operations are to be well under way by the first day of October. Negotiatiops are how on for the securing of a permanent water supply. The commencement of work on these valuable claims will mean an awakening in Woodside canyon.

OUTSIDERS AT IT AGAIN.

Kansas City Smelters.

Again has the outside smelter man gotten in his graft and another mining property will send its output beyond the confines of the territory for treatproperty will send its output beyond the confines of the territory for treatment. This time it is agent Jackson of the Consolidated Kansas City Smelting & Refining company, who has captured a Utah contract and the latter covers the output of the Consont group. The company has on hand in the neighborhood of 1,500 tons of carbonates, and this lot will be shipped at once to the Kansas City smelters. While the terms of the new contract have not been made public, it is understood that Mr. Jackson gave the company very good terms, better in fact than either the local smelters or the other outside agents could meet.

This makes nine territorial properties which are sending their productions of one and concentrates to outside smelters and in consequence of this drain on the ore supply, the receipts of the local smelters show but little increase. The valley plants are receiving more ore than they can take care of with the number of stacks in operation, however, and this is the reason the improvements being made there are being rushed with all the speed possible. But seven smelting furnaces are in blast, two at the Hanauer, three at the Germania and two at the Pennsylvania.

SHOW AN INCREASE.

Ore and Bullion Receipts For the Week Reach a Good Figure.

here was a very respectable increase in the total value of the reported ore here was a very respectable increase in the total value of the reported ore and buillion receipts for the past week as compared with that of the previous same period. It was \$29,000 for last week and still this amount did not include the private shipments or the buillion sent up from the De Lamar properties, which reached a value of about \$39,000. Then again, the Mercur put out some product whose value did not reach the recorder. During the week the Ontario went on record with 19,000 fine ounces, the Daly with 25,000 fine ounces, while the Mammoth put out two bars of silver-gold buillion, and the Eureka-Hill produced its usual bars and concentrates. Early in the new week, a shipment of high grade ores from the April Pool group in the Perguson district will be received. It should be worth in the neighborhood of \$29,000.

The business of the week was divided among the ore handlers of the city as follows: McCounick & Co., \$100,530; T. R. Jones & Co., \$63,700; Commercial National, \$2,300; Pennsylvania Lead works, \$8,650; Wells, Fargo & Co., \$15,774; Bamberger & Millan, \$45,655; Utah National, \$360.

Delamar Cyanide Tanks

Silver Brothers yesterday received two carloads of steel to be used in the manufacture of cyanide tanks for the DeLamar mill in the Ferguson district. The plant is to be enlarged by the addition of a number of the tanks, which will be made with rounded ends. Their dimensions will be 10x20x4. The tanks will be shipped south in the knock down, but ready to set up on very short notice.

Geyser Has Been Closed.

On account of the shortage of water, due to the breaking down of the pump due to the breaking down of the pumping plant which was sending the water over from the Hecla shaft, the Geyser mill has closed down, and it is not known just when it will get to work again. A cleanup of the mill has been made and the product sent to Omaha. Mr. Howard has severed his connection with the Geyser, or it has been severed for him, and Ed. Stewart is now in charge of the properties as superintendent.

Will Take Out the Mill. Joseph K. Clark, of Butte, who held the bond on the Stewart No. 2 properties the bond on the Stewart No. 2 properties out at Bingham, and who made the trial with the Alsing mill on the dress from the properties, will leave for the north this afternoon. He is through with the Stewart, for the reason that the new process is not adapted to the treatment of the ores taken therefrom. It is his intention to allow the mill to remain at the mines for a short time and then the probability is that it will be removed to

Idaho for the treatment of ores there. Mr. Clark stated yesterday that the short run made on the ores from the mines demonstrated that the process was not a successful one in the treatment of that class of rock.

Deal Not Closed.

There are still some details in connection with the prospective sale of the control of the stock of the Sevier Gold Minling and Milling company, which must be closed up before the deat is maily closed. Messrs, Daily and Parsona, the former the expert and the latter the attorney, sent out by the eastern people interested in the deat, will leave for home this morning. They will be kept posted by wire through Mr. Rice. It is anticipated that within the next few days everything will be closed up and the formal transfer of the stock made. There are still some details in connec-

Stockholders Not Anxious to Sell. The stockholders of the Tetro Mining company yesterday showed their conficompany yesterday showed their confidence in the future of the property, or at least practically all of them did, for out of a total of 300,000 shares of stock but 5,300 shares were sold as delinquent under the recent assessment. The sale was made by Treasurer Wallace at the office of the company and there was quite a group of buyers present. The pitce paid ranged from 1½ cents to 3½ cents per share. Development work is being carried on in good shape out at the property of the company and it is reported that the indications are encouraging.

Will Pay on Monday. On Monday the Centennial-Eureka will make its regular monthly dividend payment of \$1 per share, or \$50,000 in all. The checks were all drawn yesterday and the distribution is to commence tomorrow morning. Sunshine Looks Well. Charley Jacobs came in from the Sun

shine last evening, after a stay at the property of a week. He reports the mill nearly ready for operation and the mine in splendid shape. Sinking has been discontinued and the energies of the underground force is being devoted to drifting and crosscutting with the ore. Silver Moved Down. The white metal lost one point yesterday, the close being 65% cents, as com-pared with 67 cents on the day before There was no change in the price of lead

Against the Receiver.

Referee Ritchie yesterday handed dow Referee Kitchie yesteriay hanned down his verbal decision in the matter in dispute between Receiver Humphreys, of the libex Mine and Smelting company, The referee found the issues in favor of the Horn Silver company, sixing that the receiver had not established his case by a preponderance of evidence and holding that the burden of proof was on the receiver.

that the burden of proof was on the re-ceiver.

Receiver Humphreys alleged that the ore supplied to him by the Horn Silver company was not up to the standard as-say by which it was sold and that it was also short in weight.

The amount involved was about \$1.500 Findings of fact and conclusions of law will be filed later.

Rejected All Bids.

WASHINGTON, Sept. 14.-Secretary Carlisle has decided to reject all bids sub-mitted under the advertisements of the mitted under the advertisements of the treasury department issued June last for proposals for sampling and arealying of imported ores, including lead. The secretary is of the opinion that sampling and assaying may be more efficiently and economically conducted if the necessary facilities are fauritished by the government instead of private persons, or corporations, and he proposed to refer the subject to Congress next session with a view of obtaining an appropriation for the purpose indicated.

You will find a box of Ayer's Pills an excellent traveling companion. For costiveness, indigestion, sick headache and nausea, they are prompt, safe and efficacious. Taken in season, they may prevent serious litness and vexatious delay and disappointment.

WILSON THE MAN.

NOMINATED AS JUDGE OF THE FOURTH DISTRICT.

Houtz, the Vote Standing 60, 36 and 13 Respectively.

Suit has been brought by the Z. C. M. I., Thomas Whalen and others against Catharine Schweitzer et. al. to quiet title to the grounds upon which PROVO, Sept., 14.—E. A. Wilson was nominated today as judge of the Fourth judicial district, his opponents being M. M. Warner and D. D. Houtz. The first ballot stood:

The store omining stands.

The Republican campaign will open at Woodruff, Rich county, tomorrow.

The truce which has been declared in the Republican party in this county is said to be lasting. If so, there will be no more attempts to dethrone Glasmann.

being M. M. Warner and D. D. Houtz.
The first ballot stood:
Wilson. 50
Warner 35 Houiz 13

The nomination was made unailmous. Mr. Wilson made a brief speech of acceptance and was heartily congratulated by his opponents.

Other Notes. to negotiate a loan of \$6,000.

The case brought by Sheriff Hardy will be fought to a finish. Eva Belinda Benich, of Ogden, was admitted to the asylum yesterday.

The Vanwagener family, 500 strong, are celebrating at Graves' park today. Some miscreant broke into Dr. Key-sor's office in the bank building again Alex Hedquist, jr., has been convicted

of selling liquor without a license. He has appealed. The funeral of little Reva Fitzgerald, who was killed by scalding water being thrown over her, was held today.

POLITICAL.

The Democrats are looking over the field to find suitable candidates for the legislature in this district. Nomina-tions will **ro**t be made until some time tions will **rot** be made until some time in October, but considerable talk is being indulged in among the members being indulged in among the members of the party generally. So far no one has announced himself as a candidate and all who have been mentioned are not candidates in the sense that they are seeking the place; in fact, they do not desire to be candidates.

For senators, F. J. Kiesel, Thomas, D. Dee, L. W. Shurtliff, David Evans, John Seaman and Judge MacMillan are frequently speken of. For representa-

John Seaman and Judge MacMillan are frequently spoken of. For representatives, Nathaniel Montgomery, J. N. Perkins, H. H. Henderson, John Watson, T. D. Johnson, Val Gideon, Howard Carpenter, H. E. Gibson, George Allen, T. B. Lewis, J. L. Loar, John Pincock, J. S. Peery and a large number of others have been suggested as suitable persons from among whom it would be possible to select four representatives who would represent this county in a manner which would be a credit to the county and the inhabitants thereof.

county in a manner which would be a credit to the county and the inhabitants thereof.

The Herald has no suggestions to make, save that in the choice of representatives to the legislature, care should be observed and able men chosen, because a great deal will depend upon the first state legislature. It will have to enact laws to set the machinery of the new state government in motion, and unless the first legislature is composed of men of sterling worth, mistakes may be made which would work irreparable injury to the new commonwealth.

Weber county Democrats will see to it that the gentlemen nominated to represent this county in the first state legislature are above reproach and possessed of the confidence of all the people, because they appreciate the importance of the business that is to be transacted by the lawmakers. The state officers can only execute the laws passed by the legislature, and if the men who comprise the membership of that body are not competent, it will

passed by the legislature, and if the men who comprise the membership of that body are not competent, it will not be strange if the laws enacted prove defective. A thousand times greater responsibility will devolve upon the first state legislature than will fall to the lot of the state officers. The governor and his aids can do nothing without the warrant of law and he is in duty bound to enforce all laws, good or bad. They can only perform their respective duties as the law directs, and if the law is defective they will be powerless to change it. Hence to ensure the enactment of wholesome laws, elect the best men the community can boast of, to the legislature. nity can boast of, to the legislature.

THE IRON WORKS. Captain Evans returned yesterday

morning from the east and Pras busy morning from the east and was busy in his office all day. When asked how he had succeeded in his negotiations for funds with which to erect the from works, he said that he had arranged to secure all the funds necessary and that the plant would be crected, but on a much larger scale than was at first antichted. He would not talk much for publication, because his plans have not all been matured and he was not in a rosition to go into details.

in a position to go into details.

It has been known for some time that he was very successful on his last trip, so far as arranging money matters are concerned, because the necessary documents to secure the loan from one of the heaviest financial institutions in the United States have been on file here in the county recorder's office for some time.

Numerous complaints are made about impurities in the city water. An investigation of the matter should be made by competent authority. His Opponents Were Warner and

the store building stands.

At a meeting of the Democratic county committee held yesterday they elected Thomas D. Dee chairman. All arrangements for conducting the campaign in this county will be left with the chairman, who has full authority to act.

Other Notes.

Vina Eldredge will be retained in the asylum.

Asylum treasurer has been authorized

Asylum treasurer has been authorized between his wife and daughter, the former receiving one-third and the lat-ter two-thirds. Mrs. Farrell and S. S. Schramm are named as executors.

Some of the finest apples ever grown in Utah are now on sale in the local fruit market for 50 cents per bushel. It is said that the Republicans are so much in doubt about their ability to carry this county that some of the leaders want to postpone the nom-ination of the legislative ticket until the latter part of October.

Yesterday morning at 6 o'clock Wil-liam Dankers, the 15-year-old son of G. B. Dankers, died at the family resi-dence. Some days ago he underwent an operation for inflamation of the middle ear, from which he has been suf-fering for some time. Inflamation of the brain followed, resulting in death. The funeral will take place this after-noon at \$39, from the Fifth ward At 12 o'clock Friday night, John

At 12 o'clock Friday night, John Hornsby, an eastern gentleman, who came here with his son recently, died at the residence of James Pingree, in this city, as the result of a paralytic stroke. Mr. Hornsby was arranging to establish pottery works in Ogden, and had about completed the necessary investigation when stricken down The vestigation when stricken down. The deceased resided in Perth Amboy, New Jersey, where the remains will prob-ably be sent.
